

Subject: Request for a salary increase.

Respected sir,

I hope this email finds you in good health and positive spirit. I want to state that I have been working as a machine learning here at Infosys for the past three year at the job my current salary is Rs:25000/-. This seems to be a little less considering the current inflation in the market.

Therefore I request you to increase my salary at least Rs:5000/-.

I will be thankful to you.

Your sincerely,

Imtisal Ahemad Ansari
